

The Boston Herald admits that Gen. Grant will probably be the Republican candidate next year.

**GOLD IN THE TON.**  
Two tons of gold arrived in New York Thursday, by the steamship Canada, and six tons more are on the Labrador, due next Tuesday.

**GOOD FOR THE WENT.**  
During the past thirty days, the price of wheat has advanced from \$1.30 to \$1.42 per bushel. Last year at this time the same grades ranged from 90 cents to \$1.05.

**THE ARMY.**  
Says the New York Sun: "It is a lucky thing for the taxpayers that the regulation of the army is vested in Congress, and not in William T. Sherman. If the taxpayers had to do the fighting in the Indian campaign, they would probably prefer to have more military and fewer statesmen."

**NO NEED OF PRAYER.**  
The American Humane Society held its third annual meeting in Chicago last Wednesday. Thirty clergymen were personally invited to be present, and upon the occasion of the meeting they were all present, and the induction was good enough and had no need of prayer.

**BREAD AND MEAT.**  
One of the proprietors of large landed estates in England and Ireland admits that it is impossible for English farmers to compete with American wheat, and advises them to devote their attention to raising cattle. Judging from the success of American butter and cheese in the English market there will, however, be little to hope for in that direction.

**THE FRIENDS OF TRINIDAD.**  
The heavy machinery which is to be used to construct the lock of Alexandria to the vessel which is to bring it to New York has just been shipped for Liverpool, whence it will in a few days be conveyed to Egypt. As the inscriptions on the monument are all in English, it is probable that the friends of the monument will be placed in the vicinity of Granary Park.

**TOO MAD.**  
George T. Thorne, who is the "investigator" has been held out of court of justice there might be a possibility of obtaining a verdict against him, but with the manner in which he has been treated, it is absolutely "no hope." George probably thinks there has been enough in the "dub fund" to be bought up by the jury, and if not, he and old Tom might have doubled their subscriptions.

**CONSIDERABLE FORGIVENESS.**  
An intimate friend of Mr. Conkling is reported as having said to the correspondent of a New York newspaper: "Mr. Conkling does not aspire to the Presidency at the present time. He is sincerely and cordially in favor of Gen. Grant, and nomination next year. He believes not only that Grant is stronger than any other man in the Republican party, but that he is stronger before the people than any other man of either party in the nation."

**GRANT AT GALENA.**  
The Chicago Tribune is informed that a telegram received by the Hon. E. R. Washburn from Gen. Grant, located definitely the date of the latter's arrival at Galena, Illinois, as being during the week preceding the meeting of the Army of the Tennessee in Chicago, on the 12th of November. Preparations are making for a reception at Galena as the general will be proud of it. It is to be a tri-state affair, and will be participated in by people from adjacent counties in Illinois, Iowa, and Wisconsin.

**GIULINI SAYS.**  
Mr. Ingalls' possession of verbatim copies of certain private letters addressed to the counsel for the memorialists at Washington, and which were never divulged to other parties, is prima facie evidence that the letters were tampered with in the postoffice department, and it is not difficult to imagine where and by whom. The letters which have been sent are not copies. They are genuine. It is not difficult to imagine where and by whom they were taken from the postoffice where the shunkie prosecute the fellows who stole the letters from the postoffice.

**MOODY.**  
Mr. Moody is said to make very much any objection between himself and his friends. When he entered the hall in Cleveland, the other day, he found a large ornamental glass stand in front of the platform filled with water and plants. "That is very pretty," he said, "but it must come away; it would feel like an iceberg between me and the church, and when I am to speak, he objected to the platform being too far back, asking for a temporary one in front of the other. "So that I can be talking to them, and not feel as though I were talking across a street." Mr. Moody will stay a month in Cleveland and will then go to St. Louis.

**ABOUT CORN.**  
Our correspondent, A. R., gives the people of the little old world advice in contributing to the success of the proposed sugar factory, which promises to make a market for a thousand bushels of corn a day. But has it never occurred to our correspondent that a good home market for corn is a matter that interests the farmers of Leavenworth county fully as much as the merchants and mechanics of Leavenworth city? We admit that his advice is good, but it seems to us that it should have been addressed to the county instead of the town. The townspeople are subscribing liberally, and we don't know any good reason why the hundreds of independent farmers in the county should not likewise.

**A GRIM JOKER.**  
The Democratic State Convention of Louisiana perpetrated a grim joke in the adoption of a resolution in favor of a "free ballot." The whole world knows what kind of a "free ballot" the Louisiana Democrats are in favor of. As the Chicago Journal says:

"Thousands of Republican voters in that State, who were driven from the polls, or terrified from going to the polls, at the last Presidential election, can bear damning testimony, and scores of others, if they could very men who constituted the convention, and pointing to their broken heads and perforated bodies, could show such accumulation mass would convict them of crimes worse than those of the Spanish Inquisition. For that party to propose about a 'free ballot' is like a posthumous assassin shooting a bayonet into the protection of human life and security."

**SCOTT'S FALL.**  
President Scott of the Pennsylvania Railroad Company, suggests that the question of Congressional regulation of Interstate commerce might be properly settled by the action of the State of New York.
